When the microfiche copies of the Upottery parish registers were purchased in March 2002 (£36), I was advised by the Devon Record Office that the Upottery Parochial Church Council had agreed to the sale subject to the proviso that any profit derived from their use should be paid to the Church in Upottery.

This document has been formed by joining a transcription done around 2003 to one done in the past few months. The earlier transcription covered the period 1702 to 1902. At that time, I found the handwriting of the earlier entries too difficult to read. However, my skills seem to have improved and in the past few months it has been possible to transcribe back to the earliest entries, prior to 1702.

7 entries covering the period 9 November 1856 to 27 February 1857 were supplied by the Devon Record Office because they were missing from the supplied microfiche.

The sheet accompanying the Devon County Council microfiche describes the ones used for this transcription as follows: UPOTTERY baptisms MF 1,2 (1559/60-1653), MF 2,3 (1653-1696), MF 3-5 (1702/3-1768), MF 8,9 (1768-1812), MF 9-11 (1813-1842), MF 17,18 (1842-1872), MF 22-24 (1872-1931).

Any uncertainties, apparent errors and omissions should be resolved by reference to the fiche copies or, better still, if permitted, by reference to the original registers held at the Devon Record Office in Exeter.
